GOVERNOR'S OFFICE
OF EMERGENCY SERVICES

SITUATION SUMMARY

Cal EOC Incident – 2014 Drought

- SOC / Inland REOC remains activated in support of 2014 Drought

Weather of Concern

- Blowing snow and whiteout conditions through tonight in the eastern slopes of the southern Sierra mainly above 5000 feet.
- Winds of 25-35 mph with gusts to 45 mph were expected by late this afternoon, especially in higher terrain and open areas. Occasional gusts to 55 mph are possible in the southern Sierras and immediately downwind of the Spring Mountains. Winds will switch from southwest to northwest Monday morning.
- Gusty northwest winds will affect portions of Southwest California this evening through early afternoon Monday in the wake of a cold front crossing the area. The strongest winds are expected to be in the Grapevine area of the Interstate 5 Corridor in the northern Ventura and Northwestern Los Angeles County Mountains.

Active Weather Warnings, Watches and Advisories by County:

http://www.wrh.noaa.gov/sto/brief/www_bc_cal.php

SITUATION SUMMARY

Spill 15-7286, Roseville, Placer County

On 12/13/15 at 1706 the California State Warning Center received a notification from Union Pacific Railroad (UPRR) of a single locomotive derailment in their Roseville yard.

- No Hazmat release or injuries
- Cause is a broken rail
- Notifications made per SOP

Winter Storm, Del Norte County

- On 12/13/15 at 0453 hours, the California State Warning Center (CSWC) was notified that Del Norte County EOC was activated to Level 2.
- Del Norte County has issued storm emergency advisory alerts to communities to shelter in place due to storm related roadway issues; standing water and downed trees.
- All major highways (101, 197, 199) are open north of Humboldt County.
- The NWS projects that Del Norte County will receive less than a half inch (.50) of rain over the next 12 hours.
- There are no unmet needs at this time.

Activations:

- As of 1120 hours Del Norte OA is reporting that it has demobilized their EOC and is returning to Level 1, Duty Officer Status.
- As of 1141 hours the Coastal REOC is returning to Level 1, Duty Officer Status.

Utilities (Impact to population):

- Less than 100 without power in Del Norte, approximately 2000 are without power in Humboldt and 2200 are without power in Mendocino.
- Crews are on scene working to restore the remaining isolated outages.

SITUATION SUMMARY

SPILL: 15-7175, Somis, Ventura County

- The California State Warning Center (CSWC) received a Hazardous Materials Spill Report advising of an approximately 500 barrel (Bbl.) release of crude oil on a damaged transmission line in Somis, Ventura County. The location is approximately ½ way between Camarillo and Moorpark.
- Eastbound SR-118 is closed and one-way traffic control is in effect; the freeway should reopen when clean-up is complete.

Per the Cal OES Southern Duty Officer on [12/13/15 at 1725 hours](#):

- Soil cleanup activities continue in all three Divisions of the Incident area. A mobile lab is deployed to the incident and staffed 24 hours a day to facilitate the sampling and analysis process. A strategy is being developed for backfill operations. No injuries or accidents have been reported. There are no unmet needs and no requests for State assistance.
- A Cal Trans Geologist arrived at the incident to assist in reconstruction of the excavation area. The Geologist met with Representatives from the Calleguas Water District and Southern California Gas Company to address concerns regarding their respective pipelines in the area.
- [Estimated amount of oil recovered – 190 barrels](#)
- [Estimated amount of oily solids recovered – 1661 tons](#)
- [Approximately 10 yards of vegetation has been recovered.](#)
- [Division 1: Spot cleaning continues as directed by the sampling results.](#)
- [Division 2: Crews worked to remove contaminated soil from beneath the retaining wall and in the trench area.](#)
- [Division 3: Crews are jetting the culvert under the Price Road bridge to clean up the contamination in that area.](#)

WEATHER

WEATHER SYNOPSIS BY REGION:

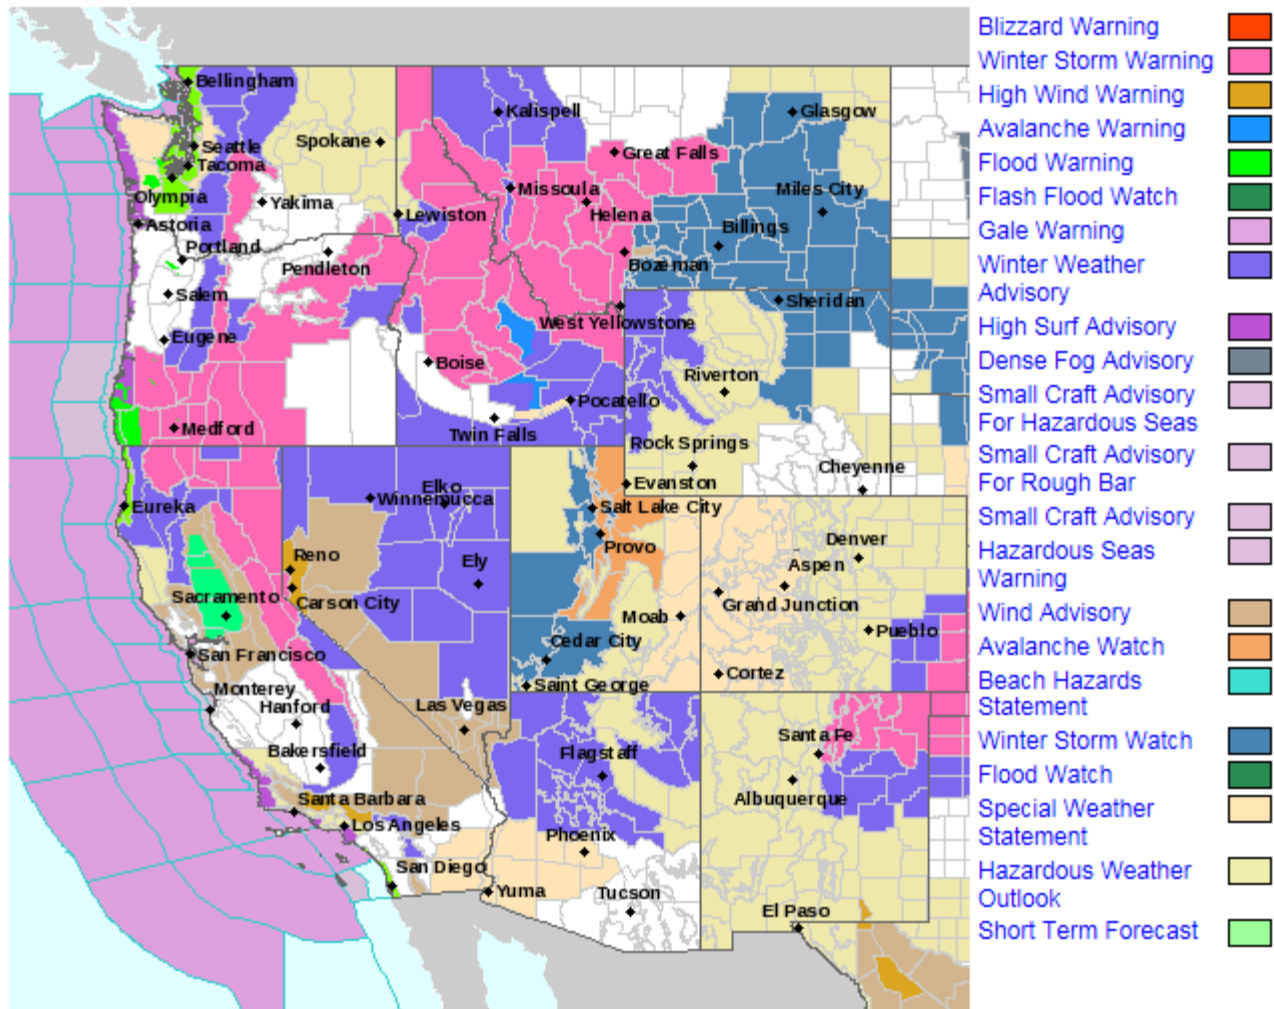

NORTHERN CALIFORNIA

This morning's satellite shows the frontal system moving across Northern California with the cold low pressure area just off the coast. The front is being preceded by strong southerly winds and has heavy precipitation associated with it. The front will be east of our area by late this afternoon and the precipitation will turn to showers. Snow levels will drop by midday to 3000 to 3500 feet in the north and 4000 to 4500 feet to the south. Monday will be partly cloudy with showers mainly over the foothills and mountains. The showers will end by late afternoon. Tuesday and Wednesday high pressure will be along the coast. The north state will be mostly sunny with normal temperatures and light to moderate north winds. The next low pressure trough will be approaching the coast Thursday. It now looks like this system will move a little slower than forecast yesterday and will split apart as it nears the coast. Late Thursday and Friday the north state will see light precipitation. A stronger system will move through our area Friday and Saturday. Snow levels with these system will be around 4000 to 5000 feet.

SOUTHERN CALIFORNIA

A low pressure trough will move through the area tonight and bring a period of rain to most areas along with areas of strong gusty winds. Some snow will fall at higher elevations. The trough will move inland Monday and Tuesday. And weak offshore flow will develop here to bring a return to fair weather. But with below normal temperatures along with areas of frost in the valleys at night. A warming trend will occur the second half of the week. A pacific system could bring precipitation early next week.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

- The SOC is activated in support of the Drought State of Emergency and continue to monitor the situation.
- The Governor issued Executive Order B-26-14 on 09/19/14, to streamline relief efforts for families with drinking water shortages due to drought, specifically through the California Disaster Assistance Act, to provide temporary water supplies to households without water for drinking and/or sanitation purposes.
- The Governor issued Executive Order B-29-15 on 04/01/15 which announced actions that will save water, increase enforcement to prevent wasteful water use, streamline the state's drought response and invest in new technologies to make California more drought resilient.
- CDAA 2014 Drought Fact Sheet and Frequently Asked Questions provided to Regions for reference and distribution.
- Cal OES Recovery continues to coordinate the Community Impacts Workgroup conference calls. Currently, the calls take place on alternating Wednesdays.
- Cal OES Recovery/Individual Assistance finalized an updated 2015 version of the drought brochure of programs and services for individuals, businesses, farmers, and ranchers. It has been put on the Governor's Drought webpage. State agencies may put the following link to the brochure on their webpage <http://ca.gov/drought/pdf/Drought-Assistance-Brochure-2015.pdf>
- Cal OES Regions (Inland, Coastal, Southern) collective OA drought call is facilitated by the SOC and will be held once per month.

CAL OES 2014 DROUGHT

Cal EOC Incident – 2014 Drought

Local Emergency Proclamations:

CAL OES MISSIONS

New/Closed Cal OES Missions

- **2015-LAW-20423, 12/13/15 at 0205 hours:** San Diego County Sheriff's Department requested assistance in the search of a missing person (MP). MP was hiking with other hikers and became separated and has not returned. Searchers located the MP's vehicle. GPS Coordinates: 33.29432N, -116.29024 plot to Borrego Springs. San Diego Sheriff Search and Rescue has requested Aerial Support with FLIR capabilities as no local assets are available. LDO contacted AFRCC who accepted the mission (15M0758A), U.S. Customs & Border Protection will assist with aerial & FLIR assets. At 0840 hours, LDO was notified that MP had been located alive and well. Aerial support assets released. **Mission Closed**

Mission:

We protect lives and property, build capabilities, and support our communities for a resilient California.

We achieve our mission by serving the public through effective collaboration in preparing for, protecting against, responding to, recovering from, and mitigating the impacts of all hazards and threats.
